

Subject		Market
Special Service Tools - KDSS Quick Connect Installation		USA
Service Category	Section	
Suspension	Suspension Control System	
Applicability		
2010-2012 GX460		

APPLICABLE VEHICLES

2010-2012	GX460
-----------	-------

CONDITION

When performing suspension diagnosis on GX460 vehicles with Kinetic Dynamic Suspension System (KDSS) there is not enough clearance to connect the KDSS SST to the port located at the Stabilizer Control Assembly on the driver side frame rail.

RECOMMENDATIONS

- To create proper clearance to connect KDSS SST to vehicle Remove the Step Side Assembly before connecting the tool.
- Refer to the repair manual for complete instructions on removing Step Side Assembly.
- Follow the Repair Manual when using the KDSS SST.
